Kanguru Recognized Among Top Ten Encryption Solution Providers By Enterprise Security

Millis, MA, USA – December 12, 2018 – Kanguru is proud to be named among the **Top Ten Encryption Solution Providers by Enterprise Security Magazine** for 2018. Kanguru provides unparalleled data encryption products to help ease the security concerns of organizations around the world, offering complete military grade protection.

Kanguru is a U.S.-based manufacturer of military grade, **Defender® AES 256-Bit, hardware encrypted USB data storage drives** that can be configured, deployed and remotely managed by organizations to maintain the highest level of security. Kanguru is the only source for a one-stop solution of fully-integrated hardware encrypted USB drives with the option of cloud-based, enterprise-level remote management. **Kanguru Remote Management Console (KRMC™)** is a robust remote management solution for which organizations can monitor, manage, and report on their deployed Kanguru Defender encrypted flash drives, hard drives and SSDs. There is even an option to remotely wipe or disable drives in the event they are ever lost or stolen.

"Our goal is to provide convenient and easy-to-use solutions." says Don Brown, CEO of Kanguru. *"We pay very close attention to the market needs… to secure data and protect information."*

Security-conscious organizations around the world trust Kanguru's encryption products to secure their data and meet industry regulations. Standards in healthcare such as HIPAA, and other regulations like GDPR, Sarbanes Oxley and GLBA are met with Kanguru's robust, easy-to-use solutions.

To learn more about **Kanguru, Kanguru Defender® Hardware Encrypted USB Drives,** and **Kanguru Remote Management Console (KRMC),** please call Kanguru at **(1) 800-KANGURU**, or visit **www.kanguru.com**.
