

Kanguru Wins Security Today, Govies 2019 - Government Security Platinum Award

Millis, MA, USA – May 2, 2019 – Kanguru is proud to be awarded the *Security Today, Govies - Government Security Award 2019*. Kanguru's flagship, the Defender 3000 hardware encrypted USB flash drive, was bestowed the Platinum Government Security Award in April of 2019 for its superb encryption standards. The Defender 3000 is Kanguru's top-of-the-line security flash drive, with FIPS 140-2 Level 3 Certification, brute-force protection, waterproof housing and remote management; ideal data protection for any high-security environment.

“Kanguru has been a leading provider of secure USB storage devices to the government sector for over 25 years,” states Nate Cote, Executive VP of Kanguru. ***“We are proud to be recognized with the Govies security award for this long-time commitment to our government customers.”***

The award honors outstanding government security products in a variety of categories, and is chosen by an independent panel of judges from the security industry. Along with 1105 Media's Security Today and GovSec, the top entries and named winners are selected using criteria including Features, Innovation, User Friendliness, Interoperability, Quality, Design, Market Opportunity, and Impact in the Security Industry, Technical Advances, and Scalability.

The Kanguru Defender 3000 is the ultimate data solution for high-security organizations, offering a variety of military grade security features:

- AES 256-Bit hardware encryption (XTS Mode)
- RSA-2048 Digitally-Signed, Secure Firmware
- FIPS 140-2 Level 3 Certification
- Remote Management with the [Kanguru Remote Management Console™](#) (KRMCTM)
- Onboard Anti-Virus Protection
- TAA Compliance
- Waterproof

For more information about the FIPS 140-2 Certified, [Kanguru Defender 3000](#) or other Kanguru products, visit kanguru.com or call 1-888-KANGURU.

Kanguru Solutions (www.kanguru.com) is a global leader in manufacturing high-quality data storage products, providing the very best in military-grade, FIPS 140-2 Certified, hardware encrypted, secure USB drives and fully-integrated remote management security applications. Kanguru also manufactures non-encrypted flash drives with a physical write protect switch, duplication equipment for cloning hard drives, SSDs, blu-ray, DVDs and more.
