

KanguruClone™ 15-HD SATA Pro Hard Drive Duplicator

Stand-Alone Kanguru SATA Hard Drive & SSD Duplicator

Model Number:
KCLONE-15HDS-PRO

The new, high performance KanguruClone 15HD SATA Pro Drive Duplicator is a high speed, stand-alone SATA drive duplicator that can create up to 15 hard drive or solid state drive copies simultaneously. With ultra-fast copy speeds of up to 12GB/min, the KanguruClone is one of the fastest data duplication systems available.

A feature rich LCD makes the duplication process a breeze. Just attach your master drive and up to 15 SATA hard drives or solid state drive targets, and you will be duplicating within seconds. The KanguruClone 15HD SATA Pro Drive Duplicator has many advanced features for the IT professional, yet the controls are simple enough that even a novice can begin cloning drives within minutes.

With multiple copy and compare modes (Brief, Disk, Resize and Ratio), secure disk wiping capabilities and robust logging capabilities, the KanguruClone 15-Target SATA HDD/SSD Duplicator is great for IT work, backing up hard drives, solid state drives, data wiping, large PC deployments, drive testing and more!

FEATURES/BENEFITS

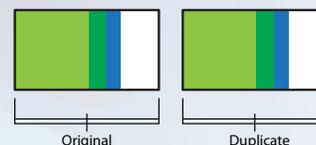

- Multiple Copy Modes: Smart, Brief, Disk, Resize and Ratio
 - **Smart** – Determines the most appropriate copy mode automatically
 - **Disk** – Complete sector by sector copy
 - **Brief** – Copies only sectors containing data, skipping empty sectors
 - **Resize** – Convert a smaller capacity Master to larger target drives
 - **Ratio** – Copy a specified percentage of the disk area
- Fast transfer rates – up to 12GB/min
- Create up to 15 copies simultaneously
- Supports 2.5" and 3.5" SATA based hard disk drives and solid state drives
- Supports all major file systems
- Secure Wipe feature (Erases up to 999x)
- PC based logging software (optional)
- Advanced tools and features
 - HPA (Host Protection Area) Check
 - DCO (Device Configuration Overlay) Check
 - Auto-kick slow drive
 - Skip Read Error
- Multiple UDMA mode support
- Store multiple hard drive images on a Storage Center for convenient access to common jobs
- Standalone system - no PC required
- TAA Compliant
- Daisy Chain Connectivity

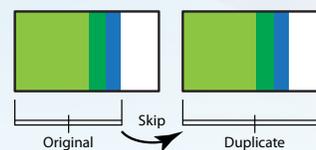

The KanguruClone 15HD SATA Pro Duplicator is TAA Compliant

EXAMPLE COPY MODES

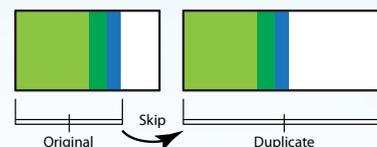

DISK MODE copies drives sector by sector from the Source to the Target(s). Supports all formats.

BRIEF MODE copies only the sectors that contain data (including information hidden in sub channels) and skips any blank sectors on drives with supported file systems.

RESIZE MODE is used to copy between Source and Target drives of different capacities. The Resize mode allows for copying from a smaller capacity Source to larger capacity Target drives.
